

INTERNATIONAL DANCE DAY

International Dance Day 29 April 2024

A celebration organised by the 6th semester mentees of Ma'am B.J Sawkmie from the department of Sociology.

Ma'am BS's philosophy: The best way to learn is by gaining hands-on experience.

Organising skills are an important job requirement, along with confidence and poise to deal with any situation one may encounter.

Hence we mentees were asked to choose an occasion where we could showcase our creativity and talents and learn to cooperate and work together to pull off a grand show. We chose to celebrate International Dance Day.

Along with working on our skill development we had fun and enjoyed the process although there were some ups and downs but we overcame the obstacles and understanding between us grew and we became closer to one another. This proves that working together has an emotional impact on the group.
